EXPERIENCE

Freelancer - Remote | Full Stack Developer

Nov, 2022 - Present

On my path I've been working on projects that involves mostly React/Next applications and REST APIs, currently I'm able to do things such as giving a nice UI/UX, responsive interfaces, animations, mobile applications, improve SEO, SSR, setting up the server, user authentication, online payments and setup databases. I've worked with E-commerce, cinema applications with ticket registration, social medias, landing pages, inventory and sales tracker and more.
